SHRIJI GROUP OF COMPANIES

**Manufacturer & Exporter of all kind of
Brass, Copper & Other Metal Components**

About Us

Shriji Brass Industries Founded in the year 1976. For more than 30 years, the company has been serving in the Bicycle Spoke Nipple (Brass). With the view of diversification and touching the new spheres in the industry we have started manufacturing of **All Kind of Metal Components** as per client's specification and requirement i.e. **Precision Components, Gas Parts, Valve Parts, Hose Fittings & Pipe Fittings, Forging Parts, Electrical Components, Plumbing Components, Fasteners Nut Bolts, Inserts & Anchors, etc** at cost effective price all over India as well as Overseas in the year 2006. To do so the company has adopted to establish a most advanced work shop for its manufacturing facilities situated in Jamnagar. With our state of the art CNC machinery we are capable of manufacturing metal components & Customised Brass Products based on specific customer requirements basis on drawings at competitive pricing and minimal lead times.

We have mastered the art of crafting Brass Components within increasingly close tolerances. The technical knowledge and a more close personal involvement of top management in the work shop floor make us different from other players in the industry.

Machinery and Equipments

S. No.	Machinery	Make	Qty
1	Sliding head machine A20	Citizen – Japan	4
2	Sliding head machine	Tornos	2
3	CNC Turning Center – Smarturn	LMW	8
4	CNC Turning Center	ACE Micromatic	3
5	Carbide tool laping and grinding maching	Agathon – Swiss	2
6	Cam milling machine	Bechellor – Swiss	1
7	Tool & Cutter grinder	Kellenberger	2
8	Deburring & Polishing M/C	Dalal – Indian	1
9	Automatic Countersion & Tapping M/C (SPM)	Kelvin – Indian	6
10	Automatic Slitting (SPM) & Milling M/C	Kelvin – Indian	6
11	Visual Measuring Machine	Optomech – 640	2
12	Bandsaw – Wire Cutting	Bharat Brand – Indian	2

Shriji Brass Industries supplies only industrial quality products designed to stand up to the most rigorous applications. We get our raw material & products certified by accredited laboratory and the rigorous testing requirements of our numerous products are conducted under the watchful eye of the certifying bodies. Continuous improvement is an ongoing process at our company. We have streamlined our quality assurance program to meet the ISO 9001:2015 standards. By implementing new and advanced stages to our inspection, testing and packaging procedures, our quality control system will meet or exceed ISO requirements and our customer needs. All products made or received by our company is subjected to thorough testing and inspections. We calibrate measuring instruments certified by NABL accredited laboratories.
